Отрывок

Газеты были наиболее традиционным и популярным средством передачи читателям местных, региональных, национальных и международных новостей. Газеты сообщают нам о последних событиях в разных частях мира через сеть корреспондентов и информационных агентств. Национальные

ежедневные газеты нанимают своих корреспондентов и репортеров во всех крупных городах мира. Крупнейшие газеты, такие как «Нью-Йорк таймс», «Правда», «Санди мейл», «Таймс оф Индия» и «Хиндустан таймс», будут формировать и влиять на взгляды, мнения и отношения миллионов читателей во всем мире. Средства массовой информации лучше всего определяются ролями, которые они играют в обществе. Они обучают, информируют и развлекают посредством новостей, статей и анализа в прессе. Они также производят документальные фильмы, драмы, программы о текущих событиях, социальную рекламу, журнальные программы и другие формы программ для радио и телевидения. Средства массовой информации являются каналом, через который голоса, точки зрения и жизнь передаются в общественную сферу. За последнее десятилетие в Африке произошел массовый рост онлайн-СМИ, которые используются как городскими, так и сельскими сообществами для доступа и доставки информации в социальных и деловых целях.

Newspapers can be divided into three basic types: dailies, weeklies and special interest newspapers . In addition , almost all newspapers have their own online edition which provides news on the Internet.

Daily newspapers print world, national and local news. Many of them also have a section about events that happen in the area in which the reader lives. Most dailies are distributed in the morning, but in some large cities newspapers have an afternoon or evening edition that comes out when people travel home from work.

Sunday newspapers have additional features and more pages than weekday editions. Topics like entertainment, finance or travel are included in separate sections, which sometimes make Sunday papers so large that they are difficult to handle.

Weekly papers are distributed in a much smaller area and have news that is more local and personal. In small communities people know each other and are often interested in activities of their friends and neighbours.

Special interest papers are newspapers for a special part of the population, like Hispanics in America. Some of them also focus on certain topics like sports or business. Newspapers are publications usually issued daily, weekly, or at other regular

times that provide news, views, features, and other information of public

interest and that often carry advertising. Although newspapers traditionally

have been produced as print publications (generally they are printed on coarse, low-cost paper known as newsprint), the newspaper concept today is changing rapidly. While there are still more than 11,000 daily newspapers in the world—including more than 1,400 paid-for dailies in the United States—many of those newspapers are also published online, and there are a growing number of “newspapers” that appear online exclusively
